Cleveland, 1; Pittsburg, 2. Batteries—Copp, Zimmer; Baldwin, Miller.

## CORBETT'S GENEROSITY.

He sends Professor Mike Donovan, His Principle Adviser, a Very Small Check.

[Special to THE HERALD EXAMINER DISPATCH.]  
NEW YORK, Sept. 20.—The world prints a story to the effect that Professor Mike Donovan, instructor of the New York Athletic club, has returned a check sent him by Champion Jim Corbett. The article states that Corbett took great interest in the fight, and was instrumental in making the big match and was Corbett's principal adviser in New Orleans at the fight. Of course if Sullivan had won Donovan would have expected anything. Last Saturday Mike received a letter from Corbett, there was a familiar looking narrow slip in the envelope and the professor's face expanded, but as he read the figures on the check the smile faded. The piece of paper called for \$200, and was so far from Donovan's expectations that he immediately returned the check to Corbett with a few remarks. In reply the champion pugilist said him what he thought his services were worth and the answer has not yet been given to the public.

## AFTER THE CHAMPIONS.

Corbett Challenged by Mitchell and Dixon by Bill Baxter.

NEW YORK, Sept. 20.—A local sporting journal receives a cablegram from London today stating that Bill Baxter had issued a challenge to fight George Dixon, the colored feather-weight champion, for \$2,000 or \$3,000 a side, and the largest purse offered for the feather-weight championship. The message also says that Mitchell has accepted a forfeit of \$200 and has accepted a challenge to fight Jim Corbett, the champion of the world, for \$10,000 a side and a purse of \$2,000 in the Olympic club in February. Mitchell says that he must fight in six months or forfeit the championship.

## ODD FELLOWS AT PORTLAND.

They Elect Officers and Hold Receptions—No Session Today.

PORTLAND, Oct. 20.—The Sovereign Grand Lodge of Odd Fellows today elected the following officers: Grand sire, C. T. Campbell, London, Ont.; deputy, J. W. Stebbins, Rochester, N. Y.; secretary, Theodore A. Ross, Columbus, O.; treasurer, Isaac A. Sheppard, Portland, Me. The grand sire's annual report shows that the net increase of active lodge membership from 1891 to 1892 was \$8,807. This is the largest increase ever made in a single year in the history of the order. The total lodge membership is 721,146, and including Sisters of Rebekah lodges, 802,881. The expenditure for relief during 1891, was \$8,174,882; aggregate revenue, \$7,333,343, an increase of \$183,000 over the previous year. The number of convalescents, patriots, militant is 618; number of children, 36,000. The remainder of the day was spent in receptions, etc. There will be no sessions tomorrow as the members go on excursions to the Willamette valley.

## CHILDREN OF CHINA.

They Want Protection—Another Proclamation by the "Six Companies" at Frisco.

SAN FRANCISCO, Sept. 20.—The Chinese six companies have issued another proclamation warning all Chinese in America against complying with the Heary registration law. They have also drawn up an appeal to the emperor of China protesting against the law, and are appealing for relief and justice. It asks that the Chinese government protect its children.

## TROUBLES OF TELEGRAPHERS.

Those of the Missouri Pacific System Want Their Grievances Adjusted.

ST. LOUIS, Sept. 20.—The telegraphers of the Missouri Pacific system have made a demand for the adjustment of their grievances. The difficulty, which is authoritatively stated to mean a higher scale of wages, will affect over 1,400 operators on the immense series of Gould lines, and the outcome will be watched with interest by the telegraphers generally, following as soon after the recent Kansas City telegraphers' convention. The regulation of the order of railway telegraphers, too, is involved, and incidentally, several recent conferences with Chief Ramsey added to the interest. Ramsey has been in consultation for weeks with the most influential members of the order, and has also learned what sympathy, and how much of it, may be expected from the allied railway orders.

## WILL QUIT AT NOON.

Cedar Rapids, Ia., Sept. 20.—At 1 a.m. circulars were sent out by the Order of Railway Telegraphers, ordering the men on the Burlington, Cedar Rapids & Northern out at noon. Chief Ramsey's conference with Superintendent Williams was from loss. Men were sent out on every train on the branches to notify all day agents, and all night men were notified by wire.

country the same privileges enjoyed by the subjects of the most favored nations, and that Congress has not lawfully abrogated that treaty.

The presidents further say they consider the law an insult to the subjects of a friendly nation, in violation of every principle of justice, equity and fair dealing between friendly powers, and an insult which is not inflicted upon citizens or subjects of any other nation. The presidents declare that if England or any other European nation should pass such a law in reference to citizens of the United States, the government and the people of the United States would resent it. The presidents also assert that if the law is enforced it will subject every Chinese merchant to blackmail of the worst type; that a Chinese merchant residing in San Francisco who may desire to travel to New York may be stopped at every hamlet and arrested on a charge of being a laborer who is not registered.

In conclusion the presidents referred to the fact that Collector Quinn said the officers of the six companies might be liable to the United States government for inciting the Chinese to disobey the law.

In response the presidents say their attorney has not been called to say law which makes it a crime for them to advise their fellow countrymen that they have the right to disregard a law which is in violation of the constitution and treaty.

## WARD MALLISTER'S SON.

His Young Wife Now Threatening Him with a Suit for Divorce.

NEWPORT, R. I., Sept. 20.—Newport society, which has only recently been greatly excited over the publication of the secret marriage of Hayward Hall McAllister, son of Ward McAllister, to Miss Jennie Marmany, of Savannah, Ga., some time ago, was again in a flutter to-night at a report that the young wife of McAllister had threatened the father-in-law with a suit for divorce. It is stated that a family conference had been held in regard to the matter, as the result of Mrs. McAllister's visit to Newport. When Ward McAllister was seen about the matter he said: "It is a private as well as a delicate matter. There were no threats on either side. There was a conference of lawyers a few days ago. Park Commissioner Albert Gallup, of New York and Francis R. Peckham, of this place, the leading lawyer of Rhode Island, represented my son. There will be no sensational developments, don't you know."

Mr. Hayward McAllister confirmed all that his father had said. Mrs. McAllister, Jr., had visited Newport in company with a "moral reformer" and had been hoping for some sort of reconciliation. No money considerations were exacted by his wife. I asked why she came here with a lawyer. He replied that he did not know. He was kind of his wife and appeared very calm.

"Did she come here to serve you with papers for a divorce," I inquired.

"I think so," said Mr. McAllister, "but understand that there were no threats, and the matter of divorce was not mentioned. She has been badly advised. It all remains with her as to a divorce. If she wants it she can have it. But remember, I have not taken the initiative. The matter is wholly in the hands of my lawyers."

## GONZALES IS GONE.

The Charge Made Against Him by the Venezuelan Government Not Held.

NEW YORK, Sept. 20.—Francisco Gonzales, arrested on charges preferred by representatives of the Venezuelan government, charged with fitting out a ship to aid the revolutionists, was released by the court today. It is estimated that the Venezuelan authorities will purchase a vessel and attempt to overhaul the Portland, which Gonzales says sails for Venezuela tonight, before she reaches South America.

## HELD UP BY THIEVES

How Idaho Passengers Were Scared to Death.

A List of Crimes and Casualties Inflicted Upon the Good People of Our Neighboring State.

A daring and successful robbery occurred on the west bound train Thursday afternoon. Just after the train had left Nixa, a station on the Short Line twenty-five miles west of Caldwell, a man in one of the coaches approached two of the passengers, asking change for \$5, at the same time, drawing that amount. The unsuspecting passengers immediately drew their pocket-books searching for change when two confederates of the man waiting change appeared on the scene and snatched the pocket-books from the owners' hands. The coach was immediately in uproar, but the robbers coolly drew six-shooters and pointed them at the excited passengers ordering them to their seats and to remain quiet. Then they found seats themselves with their guns trained for action, and the train pulled out, leaving the robbers to do not leave the train on its arrival, the trainmen telegraphed the officers at Payette to meet them. It was not until some distance out of Payette that the trainmen discovered that the trio was not with them—they had quietly dropped from the train when pulling out of Payette—and on their arrival at Payette they had no robbers.

Constable Edwards immediately took a freight train back, and leaving a deputy at Ontario came to Caldwell, arriving here about 6 p.m., when he received a dispatch from Ontario that the robbers were at that place. He took the first train back, confident that he would land his men before morning.

## Struck with a Giant Explosion.

On Wednesday forenoon Michael Caveny met with a terrible accident in the Ruth mine, on War Eagle mountain. While picking up "bottom" after firing, he struck a small piece of giant which had failed to explode when the balance went off. This exploded, filling his face full of fire particles of rock, blowing him back ten feet, and throwing the pick which he was using so that it struck him a fearful (but not fatal) blow on the breast. He crawled out some five hundred feet in the tunnel to the mine. From St. Clair hurried to town, and sent Dr. Weston up, and secured a team to bring Mr. Caveny to town. He is now resting easy, and will undoubtedly pull through. His right eye is destroyed, but the doctor thinks the sight of the left one can be saved. He will lose a finger or two from one hand. This is the second accident of this kind which has occurred here within the past month, and miners are at a loss to account for it.

## A Sad Death.

John Phillips reports the following particulars of a sad death that occurred in the mountains near his camp this year. A party of campers were stationed about four miles from his camp. Last Wednesday evening they built a fire to cook supper and the evening being cool they left the burning and making down their bed near at hand laid down to sleep. During the night the fire caught in a pine tree which was burning and fell across the bed of the sleepers, killing one woman and bruising two others severely. The woman killed was Mrs. Cook, wife of owner Deadman. Her husband is a good sheep owner and rancher in that vicinity.

## Was Injured Internally.

Marion Smith, a freighter, on Succor creek, met with an accident this week which will doubtless prove fatal. He had the brake rope of his trail wagon tied to the seat of the lead wagon. The coupling between the two wagons broke, and the rope attached to the seat jerked it from its position, throwing Mr. Smith about thirty feet. He is injured internally and is expected to die.

## The Holberg Group.

The contract has been let for the 500-foot tunnel to be run the fall and coming winter on the Holberg group of claims, lying west of the Meigs group. Philip Morgan was the successful man and will commence operations on his contract at once. The preliminaries can be arranged. The tunnel will be run from the southwest side of the mountain and will tap the ledge at a depth of about 300 feet. It is good ground, and the tunnel should prove it up in a few days and make it a paying proposition.—Record.

## Rich Discoveries.

The mill at Banner, Ida., is still running successfully, showing what the mines are capable of producing with mills of greater capacity.

The New Jersey company and John Henry are pushing development work on their mines in Beaver district. The Edna, located last May, has been sunk on to the depth of over thirty feet, where the vein is over six feet wide of exceedingly rich ore. The company operating these mines is a very strong one, and will, as soon as a depth of 200 feet is reached, put up a road to the mine, and will be able to produce in large quantities. Heavier district, in which the mines are situated, had been run over by thousands of prospectors since the discovery of the Edna. Since then, no one has been able to find a vein of any size, but it is suspected that many of the mines contained silver. Mr. Dunn, while passing through there, discovered a trace of rich silver, and immediately went to work making locations. A short time after the discovery he sent four tons to Banner for reduction, that yielded \$100 per ton. Since that time he has had no one else, but has spent his time developing several of his mines, all of which show exceedingly well. M. H. Kumpner and Vivian Thorne also have several good properties pretty well developed. Altogether there are between thirty and forty locations in the district—all showing ore on the surface. Most of the veins can be tapped at a depth of several hundred feet by tunnel, and they are exceptionally well located for convenient and profitable working. To take machinery to such a road building will be required, and timbered, and water in abundance. It is hoped and expected that several companies will be operating there within a year, and that reduction works will be erected. When that is done hundreds of miners will find steady employment there, and the proposed town of Edna will grow to large proportions and support a large population. These mines are on the belt the Idaho and Summit Flat and Banner, a few miles east of the former district. On Summit Flat and southwest the veins are gold bearing, in Beaver district both silver and gold.

## IN HANDCUFF CIRCLES.

Minor Offenders Before His Honor Yesterday.

Willie Budd and Harry Hopkins were on the inside of the police court yesterday when they should have been on the inside of the school room and not engaged in throwing rocks and annoying other children of the Ninth ward who are trying to avail themselves of the chance to learn.

The boys were discharged, but it is hoped that the time is near at hand, as capitalists are turning their attention that way, and the mines can stand the most thorough tests.

## DETECTIVE PLUNDER.

At the instance of Inspector Lapeley J. W. Nelson was arrested yesterday on the charge of doing defective work in the Walker-Flyer clock.

## LIGHTNINGBOLTS.

The lightning gentry are said to have visited the residences of John Harton on Sixth South, and John S. Bouman on Fifth South.

The lights are getting cool and they are coming in for the fall campaign.

## A VARIETY.

John Brown will be heard Friday on the charge of obtaining money under false pretenses.

Marion Kelley and James Vanice were each fined \$5 for trespass.

Minnie King is up under a charge of a wrong vacation.

The Chinese misappropriation bill against Lee was adjusted without the aid of the court.

## LAST NIGHT'S ARRIVALS.

J. M. Newton, plundering; Charles Smith and George Conley, vagrancy; Cora Nelson, trespass, and William Kelley, drunk.

## IRISH EVICTIONS.

Considerable Excitement in Dublin Over Its Resumption.

DUBLIN, Sept. 20.—There is renewed excitement everywhere in Dublin in consequence of the resumption of the eviction of tenants who are in arrears for rent. The county Clare sheriff proceeded yesterday with a large force of police to Coolroady to dispossess a delinquent tenant, but instead of the resistance expected, the tenant was ready to pay the back rent. At the next house the sheriff found the same condition of affairs. The result of the raid was that the rents were paid and none of the tenants evicted. The Freeman's Journal, anti-Parnellite, declares the attempted eviction the result of the landlords' desire to discredit the home rule government.

## VETERAN TELEGRAPHERS

Make a Short Visit to the City and Enjoy It.

Manager Brown of the Western Union had a party of twenty veteran telegraphers under his wing yesterday.

## THE DREADFUL SCOURGE.

The Case of Mr. Palmer—Pneumonia Carried Him off Suddenly—Everyone should know the symptoms and be on guard.

Mr. Wilton R. Palmer, of New York city, left a circle of friends one afternoon recently, and received their congratulations upon his bright and vigorous appearance. That evening he felt a tingling in the throat, a slight pain across the chest, a chilly sensation, and he coughed once or twice. The next day his nose-bleeds were confined, his throat sore, his chest pained him, his bones ached and he felt sore all over. The day following he was in bed, with physicians shaking their heads, and the third day he was dead from pneumonia, which he failed to take in time.

There are ten thousand men and women in America today in the same condition as Mr. Palmer when leaving his friends, but they do not know it. The slightest appearance of the symptoms above named should strike terror to any man or woman. A sudden chill means the beginning of pneumonia, aches and pains throughout the body are the first symptoms. It is necessary to bring about a reaction at once. How, then, in the best way of bringing about a reaction? Ask any physician and he will tell you to use pure whiskey. No matter how prejudiced any one may be, pure whiskey at such a time is a necessity, but unfortunately there are few pure whiskeys in the world, and in fact there is not one that has received the unqualified endorsement of physicians, chemists and the highest authorities, and that is Duffy's Pure Malt. This remarkable whiskey is sold by all first-class druggists and grocers, will absolutely check the first approach of pneumonia, while at the same time it is certain to build up the wasted system. It deserves to be kept in every household, not only to be used in cases of emergency, but to assist in prolonging life and bringing health and happiness.
